SKILLS

- **Languages:** C++, Java, Python, C,SQL
- **Frame Works:** HTML, CSS, Java Script
- **Soft Skills:** Problem-Solving, Team Player, Adaptability, Good Communication
- **Tools:** MS-Excel, Power BI

PROJECTS

Mobile Review System-Power BI November'2025-December'2025

- Interactive Power BI dashboard for mobile review analysis using Power Query **and** DAX**.**
- Data preparation and transformation performed to convert raw datasets into meaningful insights**.**
- Business-focused visuals and KPIs designed to support data-driven decision-making.
- **Tech Used**: Power Bi , Power Query Editor, Dax Functions

Surya Seeds – Dashboard Febrauary'2025

- Built an interactive Excel stock analysis dashboard for Surya Seeds to track inventory levels and product performance.
- Used PivotTables, charts, slicers, and KPIs to deliver clear visual insights on stock movement and trends.
- Performed data cleaning and modeling to ensure accurate, real-time reporting for decision-making.
- **Tech Used:** PivotTables & PivotCharts, Slicers & Timelines, Conditional Formatting, Lookup Functions (VLOOKUP, XLOOKUP), Power Query

Console Based Alaram clock June'2025

- Built a multi-threaded alarm system using C++.
- Used STL containers for efficient alarm management.
- Ensured thread-safe alarm handling using std::mutex.
- **Tech Used**: C++, Multithreading, Chrono, STL, CLI Development

GravityOrg – club Portfolio Website| Live: https://gravityorg.xyz March'2024- July'2024

- Showcases the club's events and culture through a clean, responsive portfolio website.
- I have done using modern web UI components with a structured, user-friendly layout.
- Gives students and visitors a polished platform to explore activities and join the club
- **Tech Used**: HTML, CSS, JS, UI/UX, Responsive Web Design, Responsive Web Design.

TRAINING

Data Structures and Algorithms using C++|LPU June'2025-July'2025

- Trained in **DSA using C++**, including linked lists, stacks, queues, trees, and STL.
- Solved algorithmic problems with focus on efficient time and space complexity.

Project: Text Undo Editor

- Completed training in DSA using C++ covering linked lists, stacks, queues, trees, and STL.
- Developed a Text Undo Editor in C++ implementing undo functionality using linked lists and STL.
- Applied efficient algorithms, dynamic data structures, and clean modular coding practices.

CERTIFICATIONS

- Java Programming| LPU July '2025
- Object Oriented Programming | LPU December'2024
- Data Structure Algorithms| LPU December'2024
- Fundamentals Of Computer Learning| Coursera October'2024
- The bits And bytes Of Computer Networking | Coursera Sptember'2024
- Introduction To Hardware| Coursera September'2024

ACHIEVEMENTS

- Solved 100+ problems on Leetcode and Geeks for Geeks combine.
- Working in the HR Department, Division of Student Orgaization, LPU.
- Worked as a Content Writer in Gravity Club.
- Secured 3rd rank at Ramanujan Science Olympiad

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering-CGPA-6.08 Aug'2023-Present
- **Sri Chaitanya Junior College** Guntur, Andhra Pradesh
  Intermediate; ***Percentage: 93%*** June'2021- June'2023
- **Auxilium School** Guntur, Andhra Pradesh
  Schooling; ***Percentage: 90%*** May'2020-May'2021
